INDEX TO VOLUME 94

POSTGRADUATE MEDICINE

JULY-DECEMBER 1993

SUBJECTS

ABDOMEN
• Pain, right upper quadrant, differential diagnosis. 94(2):153
ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)
• Kaposi's sarcoma, report of case mimicking cellulitis. (CR) 94(8):139
AGING
• Failure to thrive, identifying factors involved and stopping downward spiral. 94(5):199*
• Headache in elderly patients, recognition and management of benign types. 94(8):109*
• Hematogenous osteomyelitis in the elderly. 94(5):178
• Pneumonia, special considerations in the elderly. 94(5):39*
• Systolic hypertension in the elderly, recent findings from clinical trials on diuretics in treatment. 94(2):143*
• Thyroid dysfunction in the severely ill and elderly, diagnosis. 94(3):111*
AIDS: See Acquired immunodeficiency syndrome (AIDS)
ANKLE
• Sprains. (PN) 94(2):171
ANTIBODIES
• Antinuclear, test, guide to its use and interpretation of results. 94(2):55*
ARTHRITIS: See Rheumatic diseases

BACK
• Ankylosing spondylitis, recognition and treatment. 94(1):153*
BEES
• Africanized, commonly referred to as "killer" bees, migration into U.S., avoiding and treating stings. 94(2):92*
BEHAVIORAL MEDICINE
• Strategies for helping patients quit smoking. 94(1):197*
BIOPSY
• Endomyocardial, histologic evidence for cause of congestive heart failure. 94(3):78
• Fine-needle aspiration biopsy for thyroid nodules. 94(1):111*
BITES AND STINGS
• Africanized honeybees, commonly referred to as "killer" bees, migration into U.S., avoiding and treating stings. 94(2):92*
BODY WEIGHT
• Loss in elderly—failure to thrive. 94(5):201

*Major clinical discussion
CR, Case Report
ED, Editorial
PH, Physician-at-Large
PN, Patient Notes

BODY WEIGHT
• Loss in elderly—failure to thrive. 94(5):201
BRONCHITIS
• Chronic, evaluation. 94(8):84*
• Chronic, treatment. 94(8):93*

CALCULI
• Biliary stones, nonsurgical treatment with endoscopic and radiologic techniques. 94(6):61*
• Gallstones, nonsurgical treatment methods. 94(6):45*
CANCER: See Neoplasms
CARDIOVASCULAR DISEASES
• Atherosclerosis, recent findings on treatment and reversal of disease. 94(1):50*
• Cerebrovascular, cause of headache in elderly. 94(8):120
• Congestive heart failure, advanced, inpatient treatment and selection for cardiac transplantation. 94(5):97
• Congestive heart failure, antiarrhythmic therapy. 94(5):121*
• Congestive heart failure, differentiating types with noninvasive assessment of systolic and diastolic function. 94(3):55*
• Congestive heart failure, drug treatment to ease symptoms and improve quality of life. 94(5):66*
• Congestive heart failure, when is invasive testing useful? 94(3):75*
• Coronary angioplasty in patients with acute myocardial infarction. 94(8):53
• Coronary rehabilitation, new approaches to care. 94(2):131*
• Lifestyle Heart Trial—effects of life-style and dietary changes on coronary atherosclerosis. 94(1):55
• Myocardial infarction, acute, detection and treatment in different medical settings. 94(8):51*
• Myocardial reinfarction, prevention, recommendations based on results of drug trials. 94(6):94*
• Pacemakers. (PN) 94(5):221
• Popliteal artery aneurysm, evaluation and treatment. (CR) 94(2):125
• St. Thomas' Atherosclerosis Regression Study (STARS)—effects of life-style and dietary changes on coronary atherosclerosis. 94(1):55
• Systolic hypertension in the elderly, recent findings from clinical trials on diuretics in treatment. 94(2):143
• Temporal (giant cell) arteritis, cause of headache in elderly. 94(8):119
CHEMOTHERAPY: See Drugs, antineoplastic

CHILD ABUSE
• Maternal sexual abuse of male children, suspecting and uncovering such abuse. 94(1):169*
CHOLESTEROL
• Lipid hypothesis of coronary atherosclerosis, recent studies. 94(1):50*
CONNECTIVE TISSUE DISEASES
• Pulmonary manifestations, prognosis and therapeutic options. 94(5):147*

DELIVERY OF HEALTHCARE
• Decoding jargon of healthcare reform. 94(4):21
• Expanding use of nonphysician providers for costs savings—worrisome component of health reform. 94(4):128
• Hampered with enlarged healthcare bureaucracy. (ED) 94(8):17
• Healthcare reform, making sense of three proposed plans. 94(7):32
• Malpractice and the new health reform plan. (ED) 94(1):21
• Managed care can be quality care. 94(7):69
• Managed care can work. 94(4):87
• Managed care in rural areas—many unknowns. 94(7):91
• Patients worry about rationing and long lines 94(7):60
• President Clinton's healthcare plan is bad medicine. (ED) 94(7):39
• Primary care by nurses—what will healthcare reform do to the front lines of primary care? (ED) 94(3):23
• Quality depends on profit motive. 94(4):93
• Recent quotes on healthcare reform. (ED) 94(2):11
• Reform may mean reduced quality of medicine. 94(7):65
• Rural patients, will healthcare reform limit access? 94(7):96
• Thoughts on old-fashioned patient care and the President's new health plan. 94(7):81
• White House briefing book on healthcare reform. (ED) 94(4):35
• Who will advocate for patients in managed-care environments? 94(7):108
• Will personal freedom survive reform? 94(7):131
DEPRESSION
• Current diagnostic criteria and treatment options, guidelines for psychiatric referral. 94(3):85*
DIAGNOSTIC TECHNIQUES
• Antinuclear antibody test, guide to its use and interpretation of results. 94(2):55*
• Coronary arteriography in evaluating congestive heart failure. 94(3):77
• Fine-needle aspiration biopsy for thyroid nodules. 94(1):111*
• For benign prostatic hyperplasia. 94(6):142
• Radionuclide angiography to evaluate systolic and diastolic function in congestive heart failure. 94(3):65
• Rheumatoid factor in diagnosis of arthritis, reliability. 94(6):133
DIET: See Nutrition
DRUG THERAPY
• For acute myocardial infarction. 94(8):59
• For control of hyperlipidemia, recent findings on their effects. 94(1):56
DRUGS, ALPHA-ADRENERGIC BLOCKER
• For benign prostatic hyperplasia. 94(6):143
DRUGS, ANDROGEN SUPPRESSANT
• For benign prostatic hyperplasia. 94(6):144
DRUGS, ANGIOTENSIN-CONVERTING ENZYME (ACE) INHIBITOR
• Use after myocardial infarction, results of drug trials. 94(6):98
DRUGS, ANTIARRHYTHMIC
• For patients with congestive heart failure plus ventricular arrhythmias. 94(5):121*
• Use after myocardial infarction, results of drug trials. 94(6):97
DRUGS, ANTIBIOTIC
• For pneumonia, special considerations in the elderly. 94(5):43
• For treatment of erythema migrans. 94(1):138
• New, single-dose treatment for gonorrhea. 94(2):108
• Role in treatment of chronic bronchitis. 94(8):97
• Triple-drug therapy combining antibiotics with bismuth to eradicate *Helicobacter pylori* and reduce recurrence of peptic ulcer disease, new strategies. 94(3):40
DRUGS, ANTICHOLINESTERASE
• For myasthenia gravis. 94(5):167
DRUGS, ANTICOAGULANT
• After myocardial infarction, current recommendations. 94(6):94
DRUGS, ANTIDEPRESSANT
• Tricyclic, in management of depression. 94(3):87
DRUGS, ANTIEMETIC
• For alleviating chemotherapy-induced nausea and vomiting. 94(5):55*
DRUGS, ANTIHYPERLIPIDEMIC
• Use after myocardial infarction. 94(6):102

continued

DRUGS, ANTIINFLAMMATORY
• In treating chronic bronchitis. 94(8):96
DRUGS, ANTINEOPLASTIC
• Adjuvant chemotherapy for rectal cancer. 94(1):187
• Chemotherapy-induced nausea and vomiting, easing fear and discomfort with antiemetic drug regimens. 94(5):55*
DRUGS, BETA BLOCKER
• For congestive heart failure. 94(5):81
• Use after myocardial infarction, results of Norwegian Multicenter Study. 94(6):94
DRUGS, BRONCHODILATOR
• For chronic bronchitis. 94(8):94
DRUGS, CALCIUM CHANNEL BLOCKER
• For congestive heart failure. 94(5):81
• Use after myocardial infarction, drug trial results. 94(6):96
DRUGS, CORTICOSTEROID
• For patients with myasthenia gravis. 94(5):168
DRUGS, DIGITALIS
• For congestive heart failure. 94(5):78
DRUGS, DIURETIC
• For congestive heart failure. 94(5):77
• In treatment of systolic hypertension in the elderly, recent findings from clinical trials. 94(2):143*
DRUGS, DOSAGE REGIMENS
• Adjusting in patients with renal insufficiency to prevent drug-induced side effects. 94(8):153*
DRUGS, IMMUNOSUPPRESSIVE
• Effective treatment for autoimmune myasthenia gravis. 94(5):170
DRUGS, NONSTEROIDAL ANTIINFLAMMATORY (NSAIDs)
• For ankylosing spondylitis. 94(1):159
• To prevent gallstone formation and treat symptomatic gallbladder disease. 94(6):52
DRUGS, ORAL DISSOLUTION
• Chenodeoxycholic acid for gallstone dissolution. 94(6):47
• Ursodeoxycholic acid for gallstone dissolution. 94(6):48
DRUGS, SIDE EFFECTS
• Chemotherapy-induced nausea and vomiting, easing fear and discomfort with antiemetic drugs. 94(5):55*
• Reducing in patients with renal insufficiency, altering dosage regimens to prevent toxic accumulations of drugs. 94(8):153*
DRUGS, THROMBOLYTIC
• Intravenous, to reduce early mortality after acute myocardial infarction. 94(8):52
DRUGS, VASODILATOR
• For congestive heart failure. 94(5):70

ECHOCARDIOGRAPHY
• Noninvasive assessment of systolic and diastolic function in differentiating types of congestive heart failure. 94(3):63
ELDERLY: See Aging
EMERGENCY MEDICINE
• Acute myocardial infarction, detection and treatment in different medical settings. 94(8):51*
ENDOCRINE DISORDERS
• Evaluation using newer thyroid function tests. 94(1):81*
• Hypothyroidism. (PN) 94(1):207
• Hypothyroidism, early signs camouflaged by Parkinson's disease. (CR) 94(5):187
• Subclinical, overview. 94(1):95*
• Thyroid dysfunction in the severely ill and elderly, diagnosis. 94(3):111*
• Thyroid nodules, fine-needle aspiration biopsy in diagnosis and management. 94(1):111*
ENDOSCOPY
• Endoscopic sphincterotomy for bile duct stone removal. 94(6):61
EPILEPSY
• Latest medical and surgical options for management. 94(3):97*
EXERCISE
• Rehabilitation for coronary patients. 94(2):131
• Vigorous, cause of rhabdomyolysis, diagnosis and treatment. (CR) 94(6):128

GALLBLADDER DISEASES
• Biliary obstruction, nonsurgical treatment with endoscopic and radiologic methods. 94(6):61*
• Gallstones, nonsurgical treatment methods. 94(6):45*
• Management with prostaglandin inhibitors. 94(1):127*
• Primary sclerosing cholangitis and primary biliary cirrhosis, trials of medical treatment to arrest progression. 94(6):81*
GASTROINTESTINAL DISEASES
• Biliary obstruction, nonsurgical treatment with endoscopic and radiologic methods. 94(6):61*
• Gallbladder disease, management with prostaglandin inhibitors. 94(1):127*
• Gallstones, nonsurgical treatment methods. 94(6):45*
• *Helicobacter pylori* and peptic ulcer disease, rethinking management. 94(3):38*
• Nausea and vomiting, chemotherapy-induced, easing fear and discomfort with antiemetic drug regimens. 94(5):55*
• Primary sclerosing cholangitis and primary biliary cirrhosis, trials of medical treatment to arrest progression. 94(6):81*
• Rectal cancer, recent advances and future trends in therapy. 94(1):183*
• Right upper quadrant abdominal pain, differential diagnosis. 94(2):153*
GENITAL DISEASES
• Prostatitis, characteristics, diagnosis, and treatment. 94(5):191*
• Sexually transmitted diseases. (PN) 94(6):157
GERIATRICS: See Aging
GYNECOLOGY: See Obstetrics/Gynecology

HEADACHE
• In elderly patients, recognition and management of benign types. 94(8):109*
• Migraine: See Migraine
HEALTH POLICY
• Bigger isn't better. 94(7):103
• Clinton plan inspires fear of rationing. 94(7):60
• Decoding jargon—key concepts of healthcare reform. 94(4):21
• Farewell to "Cadillac" healthcare. 94(7):85
• Fears of more government intrusion. 94(4):63
• Financing healthcare reform with high cigarette taxes. (ED) 94(5):13
• Healthcare reform and changes in doctor-patient relationships. 94(7):115
• Healthcare reform and tough business climate. 94(4):71
• Lessening government regulations and changing patient expectations may be positive aspects of reform. 94(4):117
• Make patients pay their share, take responsibility. 94(7):120
• Malpractice and healthcare reform—how will enterprise liability work? (ED) 94(1):21
• Managed care can be quality care. 94(7):69
• Managed care component must allow flexibility. 94(4):101
• Managed care in rural areas—many unknowns. 94(7):91
• Observing firsthand the President deliver his new health plan. (ED) 94(6):13
• Optimism in the face of reform. 94(4):58
• Perspectives on hassle-free medical practice—managed care. 94(4):87
• Physician autonomy crucial to healthcare reform. 94(4):128
• Positive aspects of healthcare reform and managed care. 94(4):108
• President Clinton's healthcare plan is bad medicine. (ED) 94(7):39
• Profit motive essential to quality care. 94(4):93
• Pushing physicians into primary care and healthcare reform. 94(4):82
• Recent quotes on healthcare reform. (ED) 94(2):11
• Reform debate, making sense of three proposed plans. 94(7):32
• Reform may mean reduced quality of medicine. 94(7):65
• Say "No" to enlarged healthcare bureaucracy! (ED) 94(8):17
• Single-payer system—answer to problems of uninsured? 94(4):77
• Single-payer system ultimately better health reform measure than managed care. 94(7):81
• Surviving solo practice in the midst of healthcare reform. 94(4):123
• White House briefing book on healthcare reform. (ED) 94(4):35
• Who will advocate for patients in managed-care environments? 94(7):108
• Will healthcare reform be the end of first-class medical care? 94(4):51
• Will personal freedom survive reform? 94(7):131
• Will reform limit access for rural patients? 94(7):96
HEART DISEASE: See Cardiovascular diseases
HEMATOLOGIC DISEASES
• Pulmonary infiltrates in immunocompromised patients. 94(1):69*
HEPATITIS
• B, relationship to hepatocellular carcinoma. 94(8):71
HYPERTENSION: See Cardiovascular diseases
HYPERTHYROIDISM
• Evaluation using newer thyroid function tests. 94(1):87
HYPOTHYROIDISM
• Early signs camouflaged by Parkinson's disease, report of a case. (CR) 94(5):187
• Evaluation using newer thyroid function tests. 94(1):82
• In the severely ill and elderly. 94(3):115
• Patient information. (PN) 94(1):207
• Subclinical, overview. 94(1):95*

INFECTION
• Bacterial, lower respiratory tract, special considerations in the elderly. 94(5):39*
• Bacterial prostatitis, acute and chronic, diagnosis and treatment. 94(5):191
• Cause of pulmonary infiltrates in immunocompromised patients, an individualized approach. 94(1): 69*
• Gonorrhea, ideas for improving prevention and detection, treatment with single-dose oral antibiotics. 94(2):105*
• *Helicobacter pylori* and peptic ulcer disease, rethinking management. 94(3):38*
• Human immunodeficiency virus, manifested by Kaposi's sarcoma. (CR) 94(8):139
• Lyme disease, recognition of erythema migrans key to early diagnosis. 94(1):133*
• Osteomyelitis, antibiotic and surgical treatment. 94(5):177*
• Sexually transmitted diseases. (PN) 94(6):157
• Toxic shock syndrome, characteristics of staphylococcal and streptococcal forms, recognition and treatment. 94(6):107*

JOINTS
• Rheumatoid arthritis, early diagnosis important in long-term outcome. 94(8):165*

KIDNEY DISEASES
• Renal insufficiency, reducing drug-induced side effects by altering dosage regimen. 94(8):153*

LABORATORY INVESTIGATION
• Antinuclear antibody test, guide to its use and interpretation of results. 94(2):55*
• Pulmonary function testing in evaluation of chronic bronchitis. 94(8):90
• Rheumatoid factor in diagnosis of rheumatoid arthritis. 94(8):169

LICE
• Head. (PN) 94(3):143

LIVER DISEASES
• Hepatocellular carcinoma, identifying and screening at-risk populations. 94(8):71*
• Primary sclerosing cholangitis and primary biliary cirrhosis, trials of medical treatments to arrest progression. 94(6):81*

LUNG DISEASES
• Chronic obstructive pulmonary disease, major goals of management. 94(2):113*
• Pulmonary manifestations of connective tissue disease, prognosis and therapeutic options. 94(5):147*

MALPRACTICE
• Enterprise liability in the new health reform plan. (ED) 94(1):21

MEDICAL PRACTICE
• Advantages of reform. 94(4): 108
• Hassle-free with managed care. 94(4):87
• Profit motive essential to quality care. 94(4):93
• Proposed healthcare reform plan puts government between doctors and patients. (ED) 94(8): 17
• Will healthcare reform put nurses on front lines of primary care? (ED) 94(3):23

MIGRAINE
• In elderly patients, recognition and treatment. 94(8):110

MUSCULOSKELETAL DISORDERS
• Ankle sprains. (PN) 94(2):171
• Ankylosing spondylitis, recognition and treatment. 94(1):153*
• Myasthenia gravis, diagnostic methods, therapeutic options. 94(5):161*
• Osteomyelitis, antibiotic and surgical treatment. 94(5):177*
• Rhabdomyolysis after exercise, diagnosis and treatment. (CR) 94(6):128
• Rheumatoid arthritis, early diagnosis important in long-term outcome. 94(8):165*

NEOPLASMS
• Hepatocellular carcinoma, identifying and screening at-risk populations. 94(8):71*
• Intracranial tumors, cause of headache in elderly. 94(8):120
• Kaposi's sarcoma mimicking cellulitis. (CR) 94(8):139
• Rectal cancer, recent advances and future trends in therapy. 94(1):183*
• Thymoma, in patients with myasthenia gravis. 94(5):162
• Thyroid nodules, fine-needle aspiration biopsy in diagnosis and management. 94(1):111*
• Uterine fibroids, diagnostic techniques, latest developments in medical treatment. 94(3):129*

NEUROLOGIC MANIFESTATIONS
• Entrapment neuropathies, diagnosis and treatment. 94(2):39*
• Epilepsy, medical and surgical options for modern management. 94(3):97*
• Headache: See Headache
• Myasthenia gravis, diagnostic methods, therapeutic options. 94(5):161*

NURSES
• On front lines of providing primary care? (ED) 94(3):23

NUTRITION
• Malnutrition and weight loss in the elderly—failure to thrive. 94(5): 201

OBSTETRICS/GYNECOLOGY
• Chronic pelvic pain, differentiating anatomic from functional causes. 94(8):125*
• Toxic shock syndrome, recognition of staphylococcal and streptococcal forms. 94(6):107*
• Uterine fibroids, diagnostic techniques, latest developments in medical treatment. 94(3):129*

ONCOLOGIC DISEASES: See Neoplasms

PAIN
• Abdominal, right upper quadrant, differential diagnosis. 94(2): 153*
• Back, differentiating ankylosing spondylitis from other causes, diagnosis and treatment. 94(1):153*
• Headache in elderly patients, recognition and management of benign types. 94(8):109*
• Pelvic, chronic, differentiating anatomic from functional causes. 94(8):125*

PATIENT EDUCATION
• Ankle sprains. (PN) 94(2):171
• Crucial component of modern coronary rehabilitation. 94(2):135
• Head lice. (PN) 94(3):143
• Helping patients quit smoking. (PN) 94(1):197*
• Hypothyroidism. (PN) 94(1):207
• Pacemakers. (PN) 94(5):221
• Preventing holiday poisoning. (PN) 94(8):199
• Sexually transmitted diseases. (PN) 94(6):157

PATIENTS
• Taking responsibility for their health *and* the costs. 94(7):120

PEDIATRICS
• Head lice. (PN) 94(3):143
• Hematogenous osteomyelitis in children, diagnosis and treatment. 94(5):177*
• Maternal sexual abuse of male children, suspecting and uncovering such abuse. 94(1):169*
• Preventing holiday poisoning. (PN) 94(8):199

PHYSICIAN-PATIENT RELATIONS
• Changes coming with healthcare reform. 94(7):115

POISONING
• Prevention during holidays. (PN) 94(8):199

PRIMARY CARE
• Pushing physicians into primary care. 94(4):82

PROSTAGLANDINS
• Use in managing gallbladder disease. 94(1):127*

PROSTATIC DISEASES
• Benign prostatic hyperplasia, update on new medical therapies and surgical interventions. 94(6): 141*
• Characteristics of prostatitis, diagnosis and treatment. 94(5): 191*

PSYCHIATRIC/PSYCHOSOCIAL DISORDERS
• Depression, current diagnostic criteria and treatment options, guidelines for psychiatric referral. 94(3):85*
• Maternal sexual abuse of male children, suspecting and uncovering such abuse. 94(1):169*
• Psychogenic, or functional, causes of pelvic pain, differentiating from anatomic causes. 94(8):125*

PSYCHOTHERAPY
• For depression. 94(3):89

PULMONARY DISEASES: See Lung diseases; Respiratory diseases

RADIOGRAPHY
• Gallstone extraction through T-tube tract under fluoroscopic guidance. 94(6):69

RADIOTHERAPY
• Adjuvant to surgery in treatment of rectal cancer. 94(1):186
• For malignant biliary obstruction. 94(6):72

RECTAL DISEASES
• Cancer, recent advances and future trends in therapy. 94(1):183*

REHABILITATION
• Coronary, new approaches. 94(2):131*

RENAL DISEASE: See Kidney diseases

RESPIRATORY DISEASES
• Chronic bronchitis, clinical evaluation. 94(8):84*
• Chronic bronchitis, current pharmacologic approaches to management. 94(8):93*
• Chronic obstructive pulmonary disease, major goals of management. 94(2):113*
• Pneumonia in the elderly, special considerations. 94(5):39*

RHEUMATIC DISEASES
• Acute gouty arthritis, diagnosis and treatment. 94(2):73*
• Ankylosing spondylitis, recognition and treatment of this cause of back pain. 94(1):153*
• Antinuclear antibody test in diagnosing rheumatic and nonrheumatic diseases, use and interpretation of results. 94(2):55*

continued

• Connective tissue disease, pulmonary manifestations, prognosis and therapeutic options. 94(5):147*
• Entrapment neuropathies, diagnosis and treatment. 94(2):39*
• Lyme disease, recognition of erythema migrans key to early diagnosis. 94(1):133*
• Rhabdomyolysis, diagnosis and treatment, report of case caused by vigorous exercise. (CR) 94(6):128
• Rheumatoid arthritis, causes and clinical course, diagnostic considerations for optimum management. 94(8):165*
• Rheumatoid factor in diagnosis of arthritis, reliability. 94(6):133

SCREENING
• For hepatocellular carcinoma, methods. 94(8):72
SEIZURES
• Types in epilepsy, latest medical and surgical management options. 94(3):97
SEXUAL ABUSE
• Of boys by their mothers, suspecting and uncovering such abuse. 94(1):169*
SEXUALLY TRANSMITTED DISEASES
• Gonorrhea, ideas for improving prevention and detection, treatment with single-dose oral antibiotics. 94(2):105*
• Patient information. (PN) 94(6):157
SKIN DISEASES
• Erythema migrans, key to early diagnosis of Lyme disease. 94(1):133*
• Kaposi's sarcoma mimicking cellulitis. (CR) 94(8):139
SMOKING
• Cause of chronic bronchitis. 94(8):88
• Cessation, in chronic bronchitis, essential to preserve pulmonary function. 94(8):93*
• Helping patients quit, four-step approach to behavior modification. 94(1):197*
• Taxing cigarettes to help finance healthcare reform. (ED) 94(5):13
SPECIALTIES, MEDICAL
• Effects of reform—pushing physicians into primary care. 94(4):82
SUICIDE
• Management of risk in depressed patients. 94(3):89
SURGERY
• Cardiac transplantation, indications for in patients with advanced congestive heart failure. 94(5):105
• Focal resection and commissurotomy in surgical management of epilepsy. 94(3):106
• For rectal cancer, recent advances. 94(1):183
• Hysterectomy for uterine fibroid removal, considerations. 94(3):132
• Liver transplantation for advanced cases of primary sclerosing cholangitis and primary biliary cirrhosis. 94(6):84, 88
• Program on Surgical Control of the Hyperlipidemias (POSCH), recent findings. 94(1):60
• Prostate, new procedures to treat benign prostatic hyperplasia. 94(6):144
• Thymectomy in myasthenia gravis patients. 94(5):167

TECHNOLOGY MEDICAL
• Pacemakers. (PN) 94(5):221
THERAPEUTICS
• Extracorporeal shock wave lithotripsy for gallstone dissolution. 94(6):49
• Fine-needle aspiration biopsy in management of thyroid nodules. 94(1):111*
• Measures for improving quality of life for patients with chronic obstructive pulmonary disease. 94(2):116
• Plasmapheresis, short-term option for myasthenia gravis. 94(5):170
THYROID DISEASES
• Dysfunction in the severely ill and elderly, diagnosis. 94(3):111*
• Hypothyroidism. (PN) 94(1):207
• Hypothyroidism, early signs camouflaged by Parkinson's disease. (CR) 94(5):187
• Nodules, fine-needle aspiration biopsy in diagnosis and management. 94(1):111*
• Subclinical hypothyroidism, overview. 94(1):95*
THYROID FUNCTION TESTS
• Application of newer methods in evaluation of hypothyroidism, hyperthyroidism, and nonthyroidal illness. 94(1):81*
• In diagnosing hypothyroidism in seriously ill and elderly patients. 94(3):117
• In diagnosing thyrotoxicosis in the severely ill and elderly. 94(3):111
TOXIC SHOCK SYNDROME
• Recognition of staphylococcal and streptococcal forms, treatment. 94(6):107*
TRANSPLANTATION
• Cardiac, indications for in patients with advanced congestive heart failure. 94(5):105
• Liver, for advanced cases of primary sclerosing cholangitis and primary biliary cirrhosis. 94(6):84, 88
TRAUMA
• Ankle sprains. (PN) 94(2):171
TUMORS: See Neoplasms

ULCER
• Peptic, eradicating *Helicobacter pylori* to reduce recurrence, rethinking management. 94(3):38*
UROLOGIC DISEASES
• Benign prostatic hyperplasia, update on new medical therapies and surgical interventions. 94(6):141*
• Prostatitis, characteristics, diagnosis, and treatment. 94(5):191*

VASCULAR DISEASES: See Cardiovascular diseases
VENEREAL DISEASES: See Sexually transmitted diseases
